of Security

Chief, Records Management Staff

Use of Standard File Cabinets for Vital Materials
Storage.

1. Permission is requested for the use of standard cabinets,
in lieu of combination lock safes, for the housing of specific
vital material deposits of ORR/PR/A at the Agency repository.

2. The materials involved are 5x8 cards which constitute the
Central Economic Estimates File. The highest security classifica-
tion is Secret NoForN.

3. This is similar to our request of 25 January 1956, same
subject, which was concurred in by your office.

4. Your concurrence in this request will relieve a current
space problem and afford more economical storage of this file.
